

# CUSA<sup>X</sup> **elections**

## **Results of the 2024 CUSA By-election**

As per S. 8(1) of the electoral code, a Fall By-election is held to fill any vacancies that have occurred among Councillors or the Office of the President, along with any properly proclaimed referendum or recall petitions.

As of the beginning of the nomination period, five (5) vacancies were reported, all of which were Councillor positions for the Faculty of Arts and Social Science. An open nomination period was held from Monday September 23 - 9:00 am to Monday September 30 - 11:59 pm, and was advertised publicly on the CUSA Elections website and social media.

At the close of the nomination period, the CRO received no nominations from prospective candidates through the official by-election nomination form. Additionally, the CRO was not notified of any proclaimed referendum or recall petitions.

Therefore, the election process for the 2024 CUSA by-election is considered complete and neither a campaign nor voting period will occur, as it is not possible to conduct with no candidates. The five Councillor vacancies in the Faculty of Arts and Social Science will remain vacant for the remainder of the 2024-25 governing year.
